Knobs

Updated May 2, 2022

The rocker blotter “handles” I use are standard drawer knobs available at hardware stores everywhere and at many internet sites. My favorite knob (Number 1 below) came from Home Depot and has been recently discontinued by the manufacturer – Liberty. I am searching for a replacement.

If you do not like the pictured knob on the rocker blotter you are ordering you can select any of the knobs below as a replacement. I have added my comments for whatever value they may be. I can cut wood, but choice of colors and handles dips into the artistic/design realm for which I am somewhat “challenged.”

#1. This big solid brass 1 3/8 inch round knob with wide base plate is **my favorite knob for the standard sized rocker blotters.** I like it because it is tall and wide and easy to grasp. And also, very heavy (compared to other knobs.) Polished bright brass. Pictured here with a standard sized rocker blotter in “natural finish.” No staining, just polyurethane top coats.

#1 on walnut stained rocker.

#2. **My Favorite knob for baby blotters.** This 1 5/16 inch long oval “football” knob has an antique/distressed brass finish. Pictured on MinWax Walnut get stain.

#3. Round bright brass with narrow base. 1 1/4 inch diameter. Shown with baby blotter. Nice.

#3a. Very much like #3 but slightly smaller at 1 3/16 inch diameter and not as heavy.

#3. Stanley Home Designs SPV 8011 or S824-539, 5 in stock

Also Baldwin 4706-030-BIN

#3a. Laurey 7 22233 52637 8, 7 in stock

#4. Tall, oval, brushed brass, 1 5/16 inch long. Shown with baby blotter. Not really a “football” shape; maybe too “modern” for my taste. (not my first, second or third choice.)

#5. 1 5/16 inch football/rugby shaped antique brass shown with standard blotter. I like this one, but I think it is better on the walnut or heritage stained blotters. Bright brass looks better on the natural blotters. See next frame.

	<p>#7. 1 5/16 inch football shaped brushed brass with standard blotter. For my eye, the brushed look combined with the shape of this handle looks too “modern” on what is essentially intended to be reminiscent of yesterday. I also prefer the wider base, as with #1. You decide.</p> <p>3 in stock</p> <p>Amrock BP 53014-EB</p>

	<p>#8. Very similar to number 6 except shorter and not as long, 1 3/16 inch long. Bright brass. Maybe a little small on a standard blotter but nice on a baby blotter – see next frame. Pictured on left is a standard rocker</p> <p>Quantity 6</p> <p>Manufacturer unknown</p>

#8. Very nice 1 3/16 inch long football/rugby ball knob on a baby blotter.

#9. Round 1 9/32 inch diameter brushed/dull brass on rocker blotter. Looks more antique than the finish on number 7 above. This is very nice and works well on this baby blotter. It is a much lighter material than other knobs – I doubt it is brass.

#10. 1 3/16 inch round polished brass. Similar in shape to number 9. Slightly smaller. Much heavier material. Very nice on this Baby Blotter. I prefer this over #9.

Quantity 4

#11. 1 9/32 inch Brushed nickel football with wide base. I like the brushed nickel knobs with the red mahogany, cherry, and rosewood stained rocker blotters. This blotter is red mahogany stained.
